QUBO Series | High Performance Worm Gearboxes

- Taper roller bearings to withstand axial thrust
- Patented die-cast Aluminium housing (upto Box 90)
- Super-finished gears for low noise
- Synthetic lubrication
- Anti corrosion coating
- Breather plugs for cooler running
- Ribbed construction for high strength
- Assembled in a world class plant in India
- IEC Input flanges & Solid input shaft option
- Output flange and solid out put shaft option

7.5													75	90	110	7.5	

ROBUS Series | Helical Gearboxes

- Unicase cast iron body for extreme rigidity
- All gears hardened and ground to DIN Class 6
- Top opening for easy maintenance
- Diecast Aluminium cover
- Multiple input and output flange options
- Oversized bearings for dual support on all gears
- Synthetic lubrication

= 3 stages
 = 2 stages

BEVOX Series | Heli-Bevel Gearboxes

- Housing and input flanges are in aluminium pressure die cast
- Hypoid gear in first stage (2 stages) and middle stage (3 stages).
- Gears are of case hardened steel & profile ground – improve efficiency and durability, reduce noise
- Side cover for easy maintenance
- IEC input flange & Hollow output shaft
- Optional solid output shaft & output flange
- Torque capacity : 130 Nm to 500 Nm
- Reduction ratio : 5 to 300 (2 & 3 stages)
- Synthetic Lubrication - ISO VG320 grade
- Same foot print of equivalent QUBO size, easy one to one replacement

STON Series | Parallel Shaft Helical Gearboxes

- Housing and Output flange material are in cast Iron
- Side cover for easy maintenance
- Dual bearing support at input shaft
- Synthetic oil - ISO VG220 grade
- IEC input flange & Hollow output shaft
- Optional solid output shaft, output flange & torque arm
- Hold-back available as optional accessories
- Torque capacity : 200 Nm to 4300 Nm
- Reduction ratio : 4 to 120

ENDURO Series | Bevel Helical Gearboxes

- 90° angle power transmission
- Housing and Output flange material are in cast Iron
- Side cover for easy maintenance
- Dual bearing support at input shaft
- Synthetic oil - ISO VG220 grade
- IEC input flange & Hollow output shaft
- Optional solid output shaft, output flange & torque arm
- Hold-back available as optional accessories
- Torque capacity : 200 Nm to 4300 Nm
- Reduction ratio : 4 to 120
